

WEEK 10 | SEXUAL HARASSMENT 性騷擾

ALINGGO, SHIUE LING, LEE

慈濟大學人類發展與心理學系教授

Learning Goals

01. Differentiate physical sensation from emotional awareness.
區分身體感覺和情緒意識
02. Identify how gender norms shape perceptions of touch.
辨識性別規範如何影響對觸覺的知覺
03. Analyze sexual harassment as a power imbalance.
分析性騷擾作為權力失衡的表現
04. Evaluate the role of institutions in preventing and responding to harassment.
評估機構在預防和應對騷擾方面的作用

Teacher Framing

Sexual harassment is not about attraction.

It is about:

Power權力

Control控制

Legitimacy合法性

Boundary violation界線侵犯

Teacher Framing

From Chapter 8 – Gender Norms:

If boys are socialized to initiate主動 and girls to tolerate容忍, harassment becomes normalized正常化.

From Chapter 7 – Privilege特權:

Privilege includes:

The assumption of entitlement to space, to bodies, to attention.

認為自己有權利支配空間、身體和注意力。

Conceptual Ladder

Gender Norm 性別規範

→ Entitlement 權利意識

→ Boundary Testing 邊界測試

→ Harassment 騷擾

→ Institutional Response 機構應對

Conceptual Ladder

Share a brief experience of a comfortable touch.

(Notice:Comfort always includes consent雙方同意. Comfort is mutual 相互的.)

Examples: Hug somebody I like. / A pat from my parents...

Options to share:

- Write it on paper
- Say it out loud
- Draw the memory

Transition to Uncomfortable Experience

Before sharing stories, clarify:

Sexual harassment includes

- Unwanted touch 不必要的肢體接觸
- Verbal harassment 言語騷擾
- Online harassment 網路騷擾
- Power-based coercion 基於權力的脅迫
- It does not require physical force 無需使用武力

Transition to Uncomfortable Experience

Part 1:

Tell a short story about a sexual harassment experience.

It can be real or fictional 杜撰的, and anonymous 匿名的.

Transition to Uncomfortable Experience

Part 2:

Divide the story into two moments

1. Physical experience (What happened to the body?)
2. Emotional experience (When did you realize it felt wrong?)

Transition to Uncomfortable Experience

Card 1: Physical Experience 身體經驗卡

Transition to Uncomfortable Experience

Card 2: Emotional Experience 情緒經驗卡

This is my emotional experience:

- Uncomfortable (不舒服)
- Scared / Fear (害怕)
- Angry / Unfairness (憤怒或「為什麼是我」的困惑)
- Alert / Ready to defend (警覺與準備保護自己)
- Distrust / Unsafe (感覺不安全、不信任)

Transition to Uncomfortable Experience

Power Context 權力背景卡

Who had more power in the situation?

Was there:

Age difference? 年齡差異

Work hierarchy? 職級差異

Teacher/student? 師生關係

Gender majority/minority? 性別比例差異

Transition to Uncomfortable Experience

Now it's your turn. In your group, choose one story.
Try dividing it into 3 parts: physical, emotional and power.
Write each on a card.

You have 10 minutes.

Transition to Uncomfortable Experience

Consent同意 must be:

- Freely given自由給予的
- Reversible可撤銷的
- Informed知情的
- Specific具體的
- Enthusiastic積極的

If someone feels fear, consent is compromised受到影響.

If someone depends on依賴於 the other person, consent may not be fully voluntary自願.

Power imbalance權力失衡 changes consent.

Transition to Uncomfortable Experience

Group Work | 小組分析討論

Please think critically and listen respectfully as you explore these questions together.

1. How do you tell the difference between body and emotion?
2. Who taught you what is 'normal' or 'wrong'?
3. Is it different for girls and boys?
4. Where does consent disappear?
5. Was silence interpreted as agreement?
6. Did power imbalance affect the ability to refuse?
7. Who would be believed if reported?

Transition to Uncomfortable Experience

Group Work | 小組分析討論

If this happened on campus, what should the institution校方 do?

Transition to Uncomfortable Experience

Group Work | 小組分析討論

What happens when institutions ignore cases?

Transition to Uncomfortable Experience

Group Work | 小組分析討論

Each student writes 4 cards:

1. Something you learned(On the first card, write down something new you learned.)
2. Something that moved you(On the second, note something that really moved you.)
3. Something you want to remember(And on the third, jot down something you want to remember. Please go ahead and fill them out now, and then we'll enjoy a quiet five minutes to reflect.)
4. Something structural I noticed

Course Reflection 課程回顧與結論

After analyzing 分析 physical/emotional:

- Type of harassment 騷擾類型
- Power structure 權力結構
- Institutional responsibility 機構責任
- Prevention strategy 預防策略

Course Reflection

Today we learned:

Body signals肢體語言 matter.

Emotion signals情緒訊號 matter.

But structure matters more.

Harassment survives when:

Power is unequal.權力不對等

Norms excuse behavior.社會規範為這種行為開脫

Institutions remain silent.制度保持沉默

Course Reflection

Who protects whom?

Who is believed?

Who is silenced?

Understanding harm is the first step toward regulation.

Week 10

SEXUAL HARASSMENT POWER IMBALANCE, CONSENT, AND INSTITUTIONAL RESPONSIBILITY

TCU, ALINGGO SHIUE-LING, LEE @2025
