Theoretical Foundation

Social Construction Perspective

From a social construction 社會建構 perspective, gender expression is shaped by cultural norms 文化規範, media representation 媒體呈現, institutional expectations 制度期望, and everyday social reinforcement 日常社會強化.

What is considered “masculine 男性化” or “feminine 女性化” varies across historical periods 歷史時期 and societies 社會的變化.

Theoretical Foundation

Social Construction Perspective

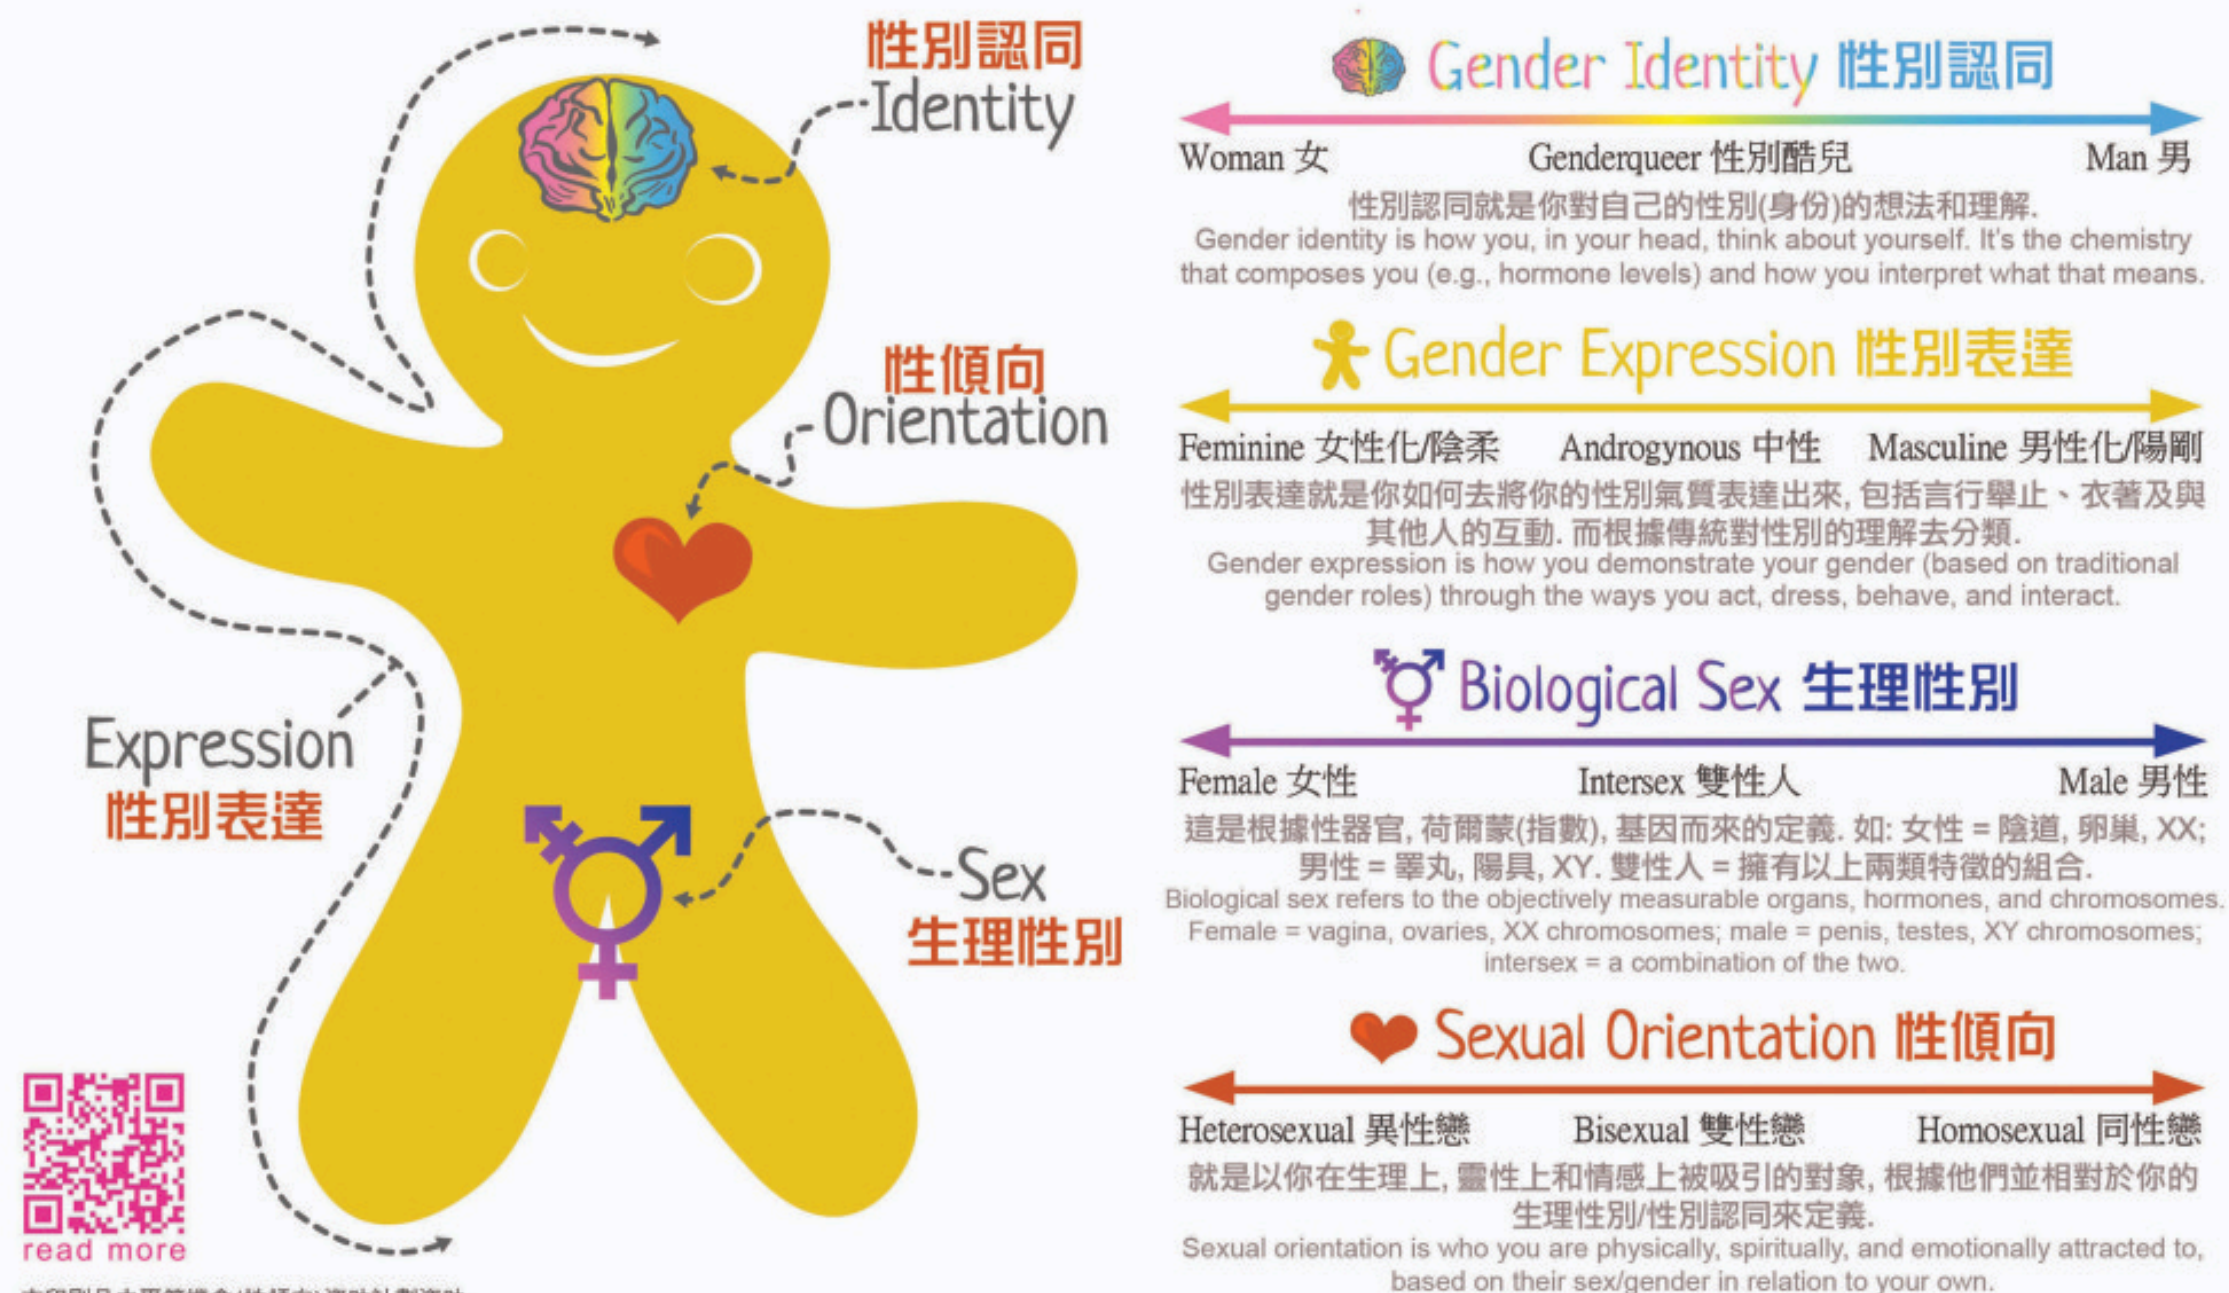

Gender expression is therefore not natural or fixed — it is learned, performed呈現, interpreted詮釋, and regulated規範 through social interaction社會互動.

Individuals may shift along the spectrum of expression depending on context, space, audience, or life stage.個體的性別表達會根據情境、空間、受眾或人生階段的不同而有所改變。
