

WEEK 7 | GBP, TRANS EXPERIENCE AND PRIVILEGE 性別薑餅人、跨性別經驗與結構性特權

ALINGGO, SHIUE LING, LEE

慈濟大學人類發展與心理學系教授

Learning Goals

01. Revisit and consolidate core gender concepts (sex, identity, expression, orientation) through the Genderbread framework.
透過性別薑餅人重新檢視並鞏固核心性別概念（生理性別、性別認同、性別表達、性別取向）。
02. Identify how privilege operates structurally — especially cisgender and male privilege.
辨識特權在結構上的運作方式－尤其是順性別特權和男性特權
03. Develop the ability to analyze legitimacy, authority, and gender regulation at individual, interactional, and structural levels.
培養在個人、互動和結構層面分析合法性、權威和性別規制的能力。

Conceptual Review

From Week 1 to Week 6, we have explored:

- Naming and expectation
- Stereotypes and socialization
- Gender expression
- Media amplification
- Sexual orientation spectrum
- Family, parenting, and institutional norms

Conceptual Review

1. What is the difference between gender identity and gender expression?
2. What does social construction mean?
3. What is one example of gender regulation from media?
4. What is one example of orientation spectrum beyond heterosexual/homosexual 異性戀/同性戀?

This is diagnostic 診斷性的.

Not evaluative 評價性的.

It checks conceptual clarity before structural deepening.

Genderbread Person – Clarification and Consolidation

The Genderbread Person

by www.ItsPronouncedMetrosexual.com

Gender Identity 性別認同
Woman 女 Genderqueer 性別酷兒 Man 男
性別認同就是你對自己的性別(身份)的想法和理解。
Gender identity is how you, in your head, think about yourself. It's the chemistry that composes you (e.g., hormone levels) and how you interpret what that means.

Gender Expression 性別表達
Feminine 女性化/陰柔 Androgynous 中性 Masculine 男性化/陽剛
性別表達就是你如何去將你的性別氣質表達出來, 包括言行舉止、衣著及與其他人的互動。而根據傳統對性別的理解去分類。
Gender expression is how you demonstrate your gender (based on traditional gender roles) through the ways you act, dress, behave, and interact.

Biological Sex 生理性別
Female 女性 Intersex 雙性人 Male 男性
這是根據性器官, 荷爾蒙(指數), 基因而來的定義。如: 女性 = 陰道, 卵巢, XX; 男性 = 睪丸, 陽具, XY。雙性人 = 擁有以上兩類特徵的組合。
Biological sex refers to the objectively measurable organs, hormones, and chromosomes. Female = vagina, ovaries, XX chromosomes; male = penis, testes, XY chromosomes; intersex = a combination of the two.

Sexual Orientation 性傾向
Heterosexual 異性戀 Bisexual 雙性戀 Homosexual 同性戀
就是以你在生理上, 靈性上和情感上被吸引的對象, 根據他們並相對於你的生理性別/性別認同來定義。
Sexual orientation is who you are physically, spiritually, and emotionally attracted to, based on their sex/gender in relation to your own.

Concept 概念	Domain 領域	Core Question 核心問題
Gender Identity	Internal	Who am I?
Gender Expression	External	How do I present?
Biological Sex	Physical	What body characteristics?
Sexual Orientation	Relational	Who am I attracted to?

Genderbread Person – Clarification and Consolidation

**Confusion at this stage will weaken structural analysis later.
We are stabilizing the conceptual ground before moving
upward.**

Important clarification:

These are not linear.

They are not causal.

They do not determine each other.

Genderbread Person – Clarification and Consolidation

The Genderbread Person is a **descriptive model, not a prescriptive model.**

It does not tell us:

How gender should be.

It describes:

How gender currently operates in society.

Genderbread Person – Clarification and Consolidation

Gender norms 性別規範 are informal rules.

They are socially enforced.

They feel natural.

But they are constructed.

Gender roles 性別角色 emerge from clusters of these norms.

Genderbread Person – Clarification and Consolidation

This week, we go one step further:

When gender norms become institutionalized 制度化, they produce structural hierarchy.

Norm 規範 → Role 角色 → Regulation 規制 → **Privilege 特權** → **Hierarchy 等級制度**

Week 7 is about the final two steps.

Introducing the Three-Level Model (NEW Structural Bridge)

1. Individual Level 個體層面

- Internal identity. 內在認同
- Self-recognition. 自我認知
- Emotional experience.

2. Interactional Level 互動層面

- How others treat you.
- Interruptions. 打斷
- Respect.
- Doubt. 質疑
- Correction.

3. Structural Level 結構層面

- Institutional legitimacy. 制度合法性
- Authority. 權威感
- Safety. 安全性
- Credibility. 信譽
- Representation. 代表性

Theoretical Deepening – Structural Concepts

Cisnormativity 順性別規範

The assumption 預設立場 that being cisgender 順性別 is natural, normal, default.

Gender Policing 性別糾察

Correcting or disciplining 懲罰 those who deviate 偏離 from expected norms.

Respectability Politics 體面政治

Only certain gender performances are treated as deserving dignity 受尊重.

Male Privilege 男性特權

Structural positioning that grants automatic legitimacy, authority, and credibility.

Precarious Manhood Theory 不穩定的男子氣概

Masculinity must be constantly proven and is easily threatened.

Theoretical Deepening – Structural Concepts

Trans experience is not introduced as an “exception.”
It is introduced as a structural revealer 結構性揭示.

When someone crosses gender categories, they expose 揭示:

- Norm enforcement 規範的執行
- Legitimacy distribution 合法性分配
- Authority shifts 權力轉移
- Safety variation 安全差異

Theoretical Deepening – Structural Concepts

As Killermann emphasizes in the privilege chapters:

Privilege feels invisible隱形 to those who possess擁有 it.

Trans narratives敘事 illuminate揭示 what mainstream identity主流身分 hides.

Transition to Trans Experience

Why talk about trans experience?

Transition to Trans Experience

When someone transitions:

- Legitimacy 合法性 shifts
- Authority 權威性 shifts
- Credibility 信譽 shifts
- Social safety shifts

Mainstream norms become visible when disrupted 被打破.

This is why trans narratives 敘事 are structurally illuminating 啟示意義.

Video Analysis

Before Watching

Observe:

- How authority changes
- How interruption changes
- How professional legitimacy changes
- What remains internally constant

Video Analysis

Paula Stone Williams – “I’ve lived as a man and as a woman”

Video Analysis

After Viewing

Proceed exactly with your original analysis sequence:

Step 1 – Describe

Step 2 – Analyze (map to levels)

Step 3 – Connect to theory

Step 4 – Reflect on discomfort

Structural Synthesis

Gender hierarchy階級制度 operates through:

- Legitimacy
- Authority
- Credibility 可信度
- Safety
- Representation

Trans experience reveals structure結構.

Male experience reveals regulation規律.

Female experience reveals devaluation貶低.

All three expose hierarchy.

Structural Synthesis

When we discuss male privilege and cis順性別 privilege, we are directly engaging with the privilege checklist tradition originating from Peggy McIntosh and adapted within gender theory by Killermann.

Privilege is:

- Unearned advantage 不勞而獲的優勢
- Structurally distributed 結構性分佈
- Identity-based 基於身分
- Often invisible 通常是隱形的

Privilege is not:

- Personal goodness 個人善行
- Personal effort 個人努力
- Individual morality 個人道德

Recap: Returning to Learning Goals

Conceptual Ladder of Week 7

Concept → Clarification → Level Mapping → Structural Theory → Lived Evidence → Structural Synthesis

Did we consolidate gender concepts?

Yes — through Genderbread deepening.

Did we identify privilege?

Yes — through structural mapping.

Did we move toward critical structural analysis?

Yes — from feeling → to system.

Homework

Submit:

- One structural example from the talk.
- Identify level (individual / interactional / structural).
- 6–8 sentence analysis.
- Use at least 3 key terms: cisnormativity / privilege / gender policing / hierarchy / legitimacy

Key Vocabulary (CEFR Layered)

A2

equal, unfair, respect, treat

B1

privilege, stereotype, authority, legitimacy

B2

cisnormativity, structural hierarchy, gender policing, precarious
masculinity

Week 7

GENDERBREAD PERSON, TRANS EXPERIENCE & STRUCTURAL PRIVILEGE

TCU, ALINGGO SHIUE-LING, LEE @2025
